Sorting and Using Materials

wood

metal

plastic

fabric

glass

paper

rock

clay

hard

soft

magnetic

rough

smooth

bendy

dull

shiny

strong

waterproof

transparent

Can you describe these objects?

Can you find
different things
made from the
same material?

Where did
the materials
come from?

How can we
group the
materials?

Which things
will 'stick to'
the magnet?

Which material
would be
best for ...?
